

TREFOREST GLASS

Come The Winter, Would You Be Wishing For A
0.9 W/m²k Optitherm Advantage by Treforest Glass?

TREFOREST GLASS HAVE A LOWER COST SOLUTION TO
ACHIEVING THE PERFORMANCE OF
TRIPLE GLAZED UNITS
IN DOUBLE GLAZING

‘OPTITHERM ADVANTAGE’ 0.9 W/m²K

Introducing Optitherm Advantage, which achieves a triple glazing performance with only two panes of glass.

The unit combines two Low E coatings to reach a remarkable U-value of just 0.9 W/m²K !

With Optitherm Advantage, homeowners will receive superior thermal performance, so they can benefit from the sort of energy and cost savings previously associated only with more expensive triple glazing.
